

**PAN BROTHERS AND GROUP SUSTAINABILITY COMMITMENTS AT THE EVENT
GERMAN INDONESIA RENEWABLE ENERGY DAY (RE -DAY) 2021**

Jakarta, Tuesday 30 November 2021 - PT Pan Brothers Tbk (“Pan Brothers/the Company”) attended the Indonesia German Renewable Energy Day (RE -Day) 2021, with the theme “Power to the Islands! Making Indonesia a Global Leader in Decentralized Power Generation and Green Energy Innovation” at the Ballroom of the Pullman Hotel Jakarta. In the event, Pan Brothers and the Group, represented by Mrs. Anne Patricia Sutanto, Vice President Director of the Company, signed the Pledge Programme and committed to utilizing at least 31% of renewable energy sources across all of our 21 entities by 2030 by investing in renewable energy and energy-efficient technologies. The Pledge Programme is one of the flagship programs where companies that have or plan to implement renewable energy can declare their commitment to using renewable energy as part of the company’s low carbon development strategy. The Indonesia German Renewable Energy Day (RE-Day) 2021 event was also attended by the Ministry of Energy and Mineral Resources (ESDM) and the Embassy of the Federal Republic of Germany representing the Ministry of Economic Cooperation and Development.

The active participation of Pan Brothers and the Group in programs initiated and launched by the Government, proves the Company's seriousness to become an important part in realizing Green Economy growth which will build strong economic growth, but also environmentally friendly, and socially inclusive. This programme is a coordinated unit of economic growth, nature, decreased awareness and social involvement developed by the development and sustainable use of global resources. Currently, the Company and the Group are in the process of installing the first phase of solar panels with a capacity of up to 2,554 kWp, and continuing with the installation of the second phase of solar panels in all of the Company's and Group's facilities in 2022.
