

**PT PAN BROTHERS Tbk WON INDI 4.0 AWARD 2022 AND APPOINTED AS LIGHTHOUSE INDUSTRY 4.0 FOR INDONESIA’S TEXTILE AND GARMENT MANUFACTURING SECTOR**

**Jakarta, 6 Desember 2022**, PT Pan Brothers Tbk (the Company) won 1 (one) INDI 4.0 award for PT Pancaprima Ekabrothers and 1 (one) Lighthouse Industry 4.0 for PT Prima Sejati Sejahtera awarded by the Ministry of Industry at the Directorate General of Agro Industries in Jakarta.

The INDI 4.0 Award and the Lighthouse Industry 4.0 appointment in 2022 was handed over by the Director General of Agro Industry of the Ministry of Industry, Mr. Putu Juli Ardika to Mr. Jackson as General Manager Marketing and Mr. Boedi Satrio as General Manager Business Development and Investor Relations representing the Company. The awards are the Ministry of Industry’s effort to show the public the rapid development of the implementation of industry 4.0 nationally and the achievements of the industrial transformation journey 4.0 in the manufacturing sector.

INDI 4.0 consists of 5 pillars and 17 areas covering management and organization pillars, workforce and culture pillars, product and service pillars, technology pillars, and factory operations pillars. Head of the Standardization and Industrial Services Policy Agency (BSKJI) Mr. Doddy Rahadi stressed the importance of the role of the manufacturing sector for the national economy. He also stated that the role and strong support from the manufacturing sector in the transformation of industry 4.0 is part of the acceleration of Making Indonesia 4.0 which targets realization of net exports’ contribution increase, productivity to costs, R&D to GDP in 2030.

The INDI 4.0 award has five levels of achievement, namely level 0 (not ready), level 1 (0 initial readiness), level 2 (moderate readiness), level 3 (mature readiness), and level 4 (already implemented). Started from INDI 4.0 self-assessment by companies through SIINAS Ministry of Industry, then followed by field verification and selection by the assessment team, 31 companies had been selected as recipients of the INDI 4.0 Award in 2022 which were grouped into seven award categories, namely Agile Organization, Sustainable Technology, Supply Chain Management, Human Capacity Building, Product and Service, Aggressive Digitalization, and Smart Factory. The

industrial companies receiving the INDI 4.0 award in 2022 were 14 companies fostered by the Directorate General of Chemical and Pharmaceutical Industries (IKFT), one of which includes PT Pancapprima Ekabrothers, a subsidiary of the Company operating in Tangerang, Banten.

Meanwhile for Lighthouse Industry 4.0, the Directorate General of IKFT appointed PT Prima Sejati Sejahtera, a subsidiary of the Company operating in Boyolali, Central Java, as one of the 9 total recipient companies.

The appointment of the Industrial Lighthouse 4.0 for the manufacturing sector and the awarding of the INDI 4.0 award was a concrete manifestation of the Company's commitment to various digitalization and automation series that had been implemented in each of the Company's operational processes. In addition, this award is also a continuation of the Pioneer INDI 4.0 award for the textile and garment manufacturing sector that the Company received in 2019. The Company understands the importance of the operational transition towards INDI 4.0 as part of its sustainability initiatives and as a key to developing production processes that lead to maximizing production capacity. Therefore, the Company plans to continue optimizing digitalization and automation while also reducing emissions with the target of upgrading all factories to sustainable Industry 4.0 standards.
